FAQ 15

WE ARE DESIGNERS AND MANUFACTURERS OF LUXURY TENTED VILLAS

OUR TENTS

Semi-permanent, and heavy-duty, our Tents have a dense metal framework and building-inspired foundation. With sizes from 9 to 150 m2, all are available with insulation, platforms, doors, and a choice of roof designs.

APPLICATIONS

Our Tents become Resorts, Spas, Residences, Vacation Homes, Restaurants, Hotel-Receptions, Swimming Pool areas, Event-Venues, and Luxe Gazebos. We have more than 160 Tents in 24 countries. We enable:

THE LIFESPAN

20 years+ , if maintained well. Our Fabrics are resistant to water, mildew and UV exposure: 'self-cleaning', as per European standards. Our Frames are galvanised and marine-coated, designed to last 25 years or more.

EXTENSIONS

DOORS & WALLS

FURNITURE & DECOR

Base model of Tent
includes a Single Roof.
Add-ons include:

1 AC ROOF

Retain the cool air in, vent the heat out. Ideal if you shut the wall panels during the day and run the AC. Extra insulation is given.

2 DOUBLE INSULATION

Ideal for seasonal climates; Combine with hybrid elements like sliding glass doors and solid wood walls to create a comfy all-weather tent.

3 DOUBLE ROOF

Higher ceiling height and extra ventilation which cools the interiors naturally; Inspired by traditional Balinese design. Eye-catching and efficient.

ROOF VARIATIONS

BATHROOMS

CANOPY EXTENSIONS

DOORS & WALLS

FURNITURE & DECOR

Image showing semi-outdoor bathroom view. A bathroom can be added in 3 ways:

1 SEMI-OUTDOOR

An ensuite is added quickly and easily. Standard sizes are 6.25sqm (67sqf) & 12.5sqm (134sqf)

2 INDOOR FULL-BATH

Larger tents can accommodate wholly covered bathrooms. Wall-panels can remain closed in bad weather, or can open to a private courtyard.

3 CLIENT-MANAGED

Add your own custom-designed extension with concrete, rock, or wooden walls, and connect it to the tent.

ROOF VARIATIONS

BATHROOMS

CANOPY EXTENSIONS

DOORS & WALLS

FURNITURE & DECOR

Each base model of Tent comes with roof eaves.
Add-ons include:

1 SWING WITH CANOPY

Fully covered canopy and option for roll-down walls. Most popular & photogenic.

2 DECORATIVE CANOPY

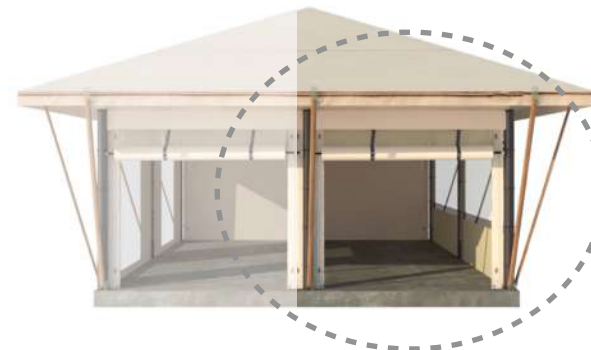

Add extra sun-shading and a soft aesthetic. Remove in extreme weather.

3 TENSION ROOF

Extra 3.8sqm (40sqf) of covered outdoor sitting area. Perfect for a day-bed or breakfast nook.

Cleaning & Maintenance kit
Scaffolding for Installation

ADD-ONS

Feasibility Study
On-site installation by Escape Nomade Team
Additional Tent features, such as roof variations, decorative canopies
Additional Building features, such as decks
Bathroom Extensions
Signature Furniture & Décor

ELECTRICITY & PLUMBING

Installed same as in any other building- AC, Fridge, Power-Sockets, Inlet pipes, Outlet pipes etc.

CLEANING & MAINTENANCE

Tents are maintained with regular cleaning just as in any other building. We provide you with a step-by-step instruction video, and all the tools and solvents required for the same.

SAFETY CONCERNS

Our roll-down panels have lockable zippers. The wooden doors have locks.

NOISE CONCERNS

Noise levels are experienced same or lower, than in any other home. Our metal structures are well-padded with multiple layers of fabric, so rain does not clammer against them.

WEATHER CONCERNS

Seasons are experienced similar to any other built structure. Electricals are added like in any home, so AC and fans can be used to negate heat. Roofs are designed for efficient ventilation and reduced temperatures. They have 2-layered insulation against the elements.
